

# TACHAI ISLAND (The Virgin Island)

- Paradise on earth a day trip destination which is located roughly halfway between the Similan and Surin Islands. 800 meters of the snow-white sand beach is definitely among the most stunning things in Similan Islands have to offer. The Island's beauty is the future emphasized by its lush nature and dazzling clear waters. The island is widely referred to as "Virgin Island" due to its untouched nature. The island is habited by rare species of crab, the "Chicken Crab", also known as the Hairy Leg Mountain Crab", as well as giant hermit crabs. You will likely encounter them scattered in the island's jungle or wandering on the sand beaches. Thachai Island's diverse nature also includes a rich marine life – the coral reefs are home to more than 200 species, from cute clown fish to the occasional black tip reef sharks.
